

Bis bald in der  
Kinderbibliothek

# LixderLuchs schaut an!

## Tips for reading

1. Find a comfortable spot for reading – your child will love the cozy atmosphere.
2. Choose a good time for reading and looking at picture books: e.g. an inactive phase during the day or before going to bed.
3. Read regularly so that reading will become an integral part of your everyday family life.
4. Be patient with your child. Respond to his or her reactions, questions and needs. When reading a picture book, everything your child is concerned with can be discussed quite openly.
5. Also let your child choose books. Respond to his or her interests and wishes and read his or her favorite book over and over again.
6. When talking to your child in other everyday situations, refer to picture books and stories.
7. Read to your child in the language you speak best. This also applies to storytelling.

Don't forget: Each child is different and has different wishes and needs which will change over time. You know best what your child likes and what is good for him or her!

### Reading Recommendations: Books and Media Tips for Children

Are you looking for children's books that will be enjoyable for your children?

Are you looking for more tips about reading aloud?

In your local library you will find many exciting children's books to read aloud together and talk about. Drop by and have a look!
